

Gift Certificate Limitations

- * This certificate is only redeemable with REAL ADVENTURE HOT-AIR BALLOON Co., or the outfitter providing final services. Contact REAL ADVENTURE HOT-AIR BALLOON Co. to make arrangements for final services.***
- * This certificate is not redeemable for cash, exchangeable in full for other trips and is not refundable at any time. For an additional cost, it may be possible to extend the expiration date of the certificate.***
- * This certificate does not guarantee availability of any specific dates or give preferential treatment to the bearer. The redemption of this certificate is limited by space availability, expiration date, appropriate weather conditions, and prior reservations. This certificate may not be redeemable for holiday weekends or special events.***
- * This is the only copy of the gift certificate. If it is lost there will be no replacement or ability to redeem the trip or it's value.***
- * The certificate works just like money so you will need to follow the same reservation requirements as all other customers. Cancellations within 2 days of the scheduled flight or "no shows" on the part of the bearer will cause a forfeiture of the certificate and it's full value as would happen if paid by cash. For complete details, see the Pricing & Refund Policy & Limitations information on the "Reservations & Pricing" page at <http://raballoon.com>, or call REAL ADVENTURE HOT-AIR BALLOON Co. for a copy of the policy.***
- * REAL ADVENTURE HOT-AIR BALLOON Co. may merely be the agent for another provider of services at the time of redemption of the certificate. REAL ADVENTURE HOT-AIR BALLOON Co. is not responsible for the final actions of any other provider of services.***
- * The certificate is only redeemable by the bearer named on the front of the document. Picture identification may be required for redemption.***
- * Many activities, such as hot air ballooning, are completely dependent on weather conditions and total weight limitations of the aircraft. In the event that weather or forecasted conditions prevent the provider from safely conducting any, or all scheduled activities, the certificate may be redeemed at another, rescheduled time. The pilot, and only the pilot, reserves the right to make the determination as to the safety of the weather conditions or feasibility of the activity at the time of certificate redemption.***
